

**For Fitness
Relaxation
and Fun**

SWIM SPA

Aqua Life / Easy Life Series

Treat yourself to a better way of living.
You deserve it!

Be yourself

Be at your best every day by making your swim spa a part of your daily ritual. Experience benefits like the relief of stress and tension from sore muscles as well as emotional and mental benefits.

Be together

Create unforgettable moments with your loved ones as you immerse yourselves in the water's comforting warmth. The swim spa offers a private and secure environment to unwind, release stress, and engage in meaningful conversations.

Be outside

Pause and bask in the beauty of stunning sunsets, starry nights, falling snow, changing leaves, and more. You have a private retreat with a swim spa just steps away from your door. Surrounded by nature, you can fully appreciate the captivating scenery we often overlook.

Ingenious design for maximum comfort

Experience Freedom in Every Stroke

2.35m width swim spa provides a more spacious swimming area, allowing for a more comfortable and natural swimming experience.

Choose Your Plunge

Oasis spas are proud to offer both standard Depth and Extra Depth swim spa.

- **Standard Depth:**

Easier to access, less cost to heat and maintain, User friendly and safety assured.

- **Extra Depth**

With greater depth, an extra depth swim spa provides a more realistic and challenging swimming environment.

Innovative design for extended swimming area

A more spacious and continuous swimming area, whether you swim competitively or are interested in building endurance, Oasis Swim Spa puts your goals within reach.

Swim line

This line contrasts for easy positioning in the swim stream. Made from durable EVA resin, it stays flexible in cold temps, offers foot protection, resists aging and ozone, and won't peel.

Unleash your best swimming performance

Oasis revolutionary patented 3 inch turbo swim jets provide a powerful yet smooth for an unparalleled swimming experience.

Correct jet positioning is crucial, low or wide jets just waste water flow. Our swim jets target the shoulders and chest to create maximum balance.

Patented 3-inch power flow swim jet

Indulge in an exquisite swimming experience, with the ability to swim against the current, and pure exhilaration in every moment.

- Honeycomb design, which is different from the direct injection jet on the market. More uniform of water sprays and without any vortex turbulence.
- Power flow swim jets for targeted resistance powered by high flow pumps, avoid water diverters and maximum and smoother water flow.
- Correct jet positioning is crucial. Our swim jets target the shoulders and chest to create maximum resistance.

Swim at your own pace

Quickwater professional swimming training system

Unleash the experience of a five-star swimming pool. Unlike any other swimming pool on the market, our swim spa with precise positioning power flow swim Jet, smart swim control system & 10-speed swim pump, which provide a powerful yet smooth, continual flow for exercise and swimming.

Adjustable speed control panel

10 grades of adjustable swimming current strength, everyone can find his/her own speed for swimming!

*Available on Pro Premium model only.

Creating the perfect massage

Point map massage jet layout

Oasis spas combine precision massage and a scientific seating layout to offer the proven benefits of hydrotherapy and the stimulation provided by hydrotherapy massage - using targeted water jets to loosen muscles, stimulate blood flow and create a total body feeling of wellness.

Unleash surging force

Elevate your hydrotherapy experience with our cutting-edge high-power massage pumps. Delivering an unyielding surge of energy, ensuring a vigorous flow of water to immerse yourself into and rejuvenate in a truly soothing spa.

Diverse jet combination

Different jet configurations on each seat, provide a varied and targeted massage for different muscles groups.

Full body massage recliner

Experience the relaxation of your entire body all at once - from your neck to your toes.

Accu-pressure back massage

A number of accu-pressure jets are used in one seat to precisely target pressure points in the back and lower neck.

Massage Wall

The massage wall is just what you need after a workout to make you feel better, ease muscle pain, improve circulation, and help you recover from a strenuous event faster.

Customise Your Own Massage Experience

1. Precision-crafted stainless steel hydrotherapy jets.
2. Performing various actions, adjust each jet individually for a great targeted massage.

2.5 Inch Jet Internal-Directional

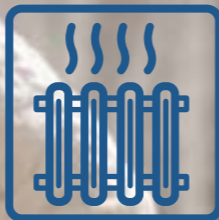

3 Inch Jet Single-Spin

4 Inch Jet Single-Spin

5 Inch Jet Single-Spin

Cut your energy bills up to 26%

Daily Energy Cost (kWh)

- Oasis Swim Spa
- CEC standard

11.2 kWh

Oasis Swim Spa

14.98 kWh

CEC Standard

*The CEC energy test is a necessary certification for SPA products in California, USA.

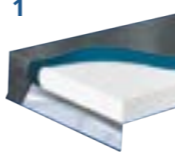

Test Conditions:
 1.Fill tank with water at 15cm from top or center of skimmer spacing.
 2.Use thermostat and circulation pump to heat water to 39 ± 1 C .
 3.Stable water temperature, ambient temp at 17 C , test for 72 hours.
 Calculate hourly power consumption using:
 V: U.S. gallons (1 gallon = 3.7854 liters)
 Pmax: max power consumption per hour in watts.

Test Method:
 Keep thermostat and circulation pump on, unplug other loads. Set low recirculation cycle, cover with thermal cover. Maintain water temp for 4 hours, note meter power. After room temp drops to CEC standard, record current meter power. After 72 hours, record power again. Compare actual power with theoretical value to check compliance.
 Test Note: Theoretical CEC value is affected by water injected into prototype, leading to variations due to human errors.

5-Stage Platinum Lock Full Foaming

1

High density foam cover

Lockable cover with high density insulating foam stops heat loss from above.

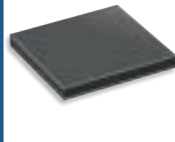

2

Full foaming

Full foam insulation creates a thermal barrier around the spa to ensure the heat stays in the water where it should and is the most energy efficient insulation solution on the market.

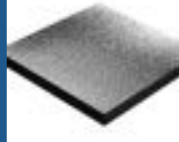

3

Thermo shield

3-layer insulation on the sides of the cabinet ensures outdoor durability, maintaining its shape even under extreme heat exposure.

4

Rubber insulation cotton

The cabinet is given a 25mm layer of rubber insulation cotton, with reflective aluminium foil on it. Not just to prevent the loss of heat, but also to actively reflect it back into the spa cabinet and the water.

5

Solid plastic base

Enhanced spa strength with a solid plastic base. Protects against pests, weather, and damage while offering a cost-saving insulation system.

Enjoy the art of purity

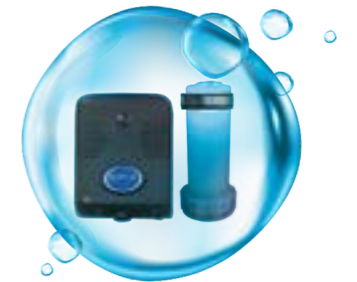

Efficient antibacterial filtration system, providing crystal clear food-grade water.

Food-grade water quality

Enjoy food-grade water quality with NSF food-grade hoses, ensuring that the water meets drinking standards and protects you and your family from harmful chemicals.

Virus and bacteria elimination

Easy care CD ozone with boost chamber provides safe and clean water, effectively kills germs and breaks down body oils for reduced chemical disinfectant usage.

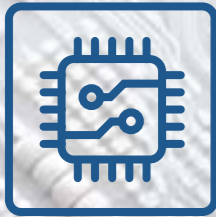

High efficiency filtration

Highly efficient blue filters quickly remove debris from your spa, ensuring a safe and clean experience is always ready for you.

Energy-efficient

Powered by a high-performance pump, our system ensures low energy consumption and efficient energy-saving, allowing you to relax and enjoy your swim spa worry-free.

Easy control at your fingertips

Control your hot tub easily. With 18 years of experience, the SPATECH control system offers a new world of possibilities for spa users. The 5-year warranty gives you peace of mind.

The SpaTech control panel gives you real time feedback allowing you to manage your spa effectively and easily.

Easy control of your heat pump with the keypads. 6 modes let you take full advantage of your heat pump to optimize your savings: Eco Heat, Smart Heat, Eco Auto, Smart Auto, Cool, and Electric.

Customize maintenance reminder, which can automatically remind you to maintain your beloved hot tub in time according to your habits.

Thanks to its simple and efficient configuration options, the touchscreen keypad is intuitive and user friendly, easy for anyone to take control of.

Powerful compatibility with WiFi, Bluetooth speakers. Easy to control your hot tub's functions and features from any smartphone or tablet, even when you're away from home.

4 x Preset modes allow you to choose the best suited to your spa needs and maximise efficiency and reduce running costs: Standard, energy-saving, vacation and sleep mode.

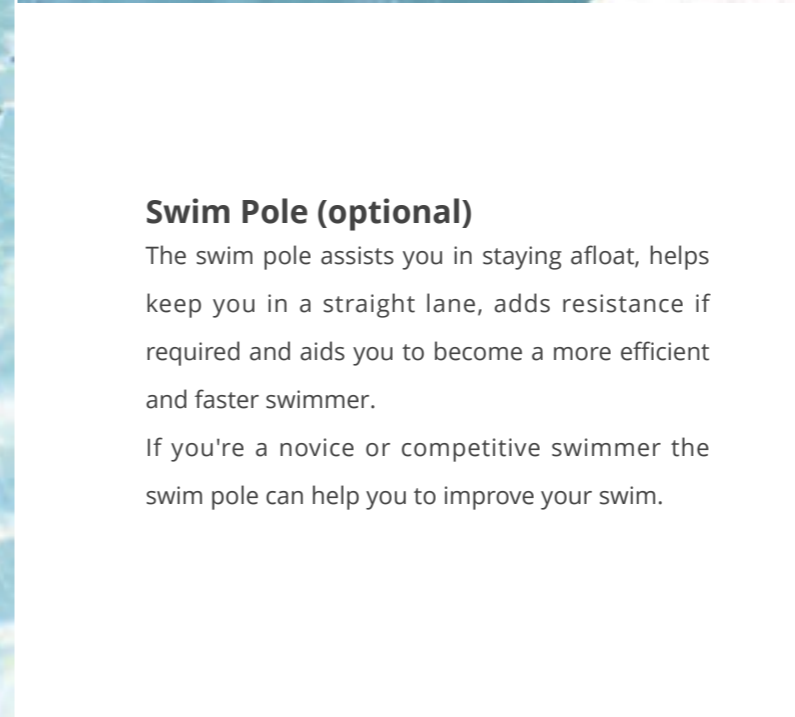

Joint-friendly water sports with a variety of accessories

Create your effective aquatic fitness routine. Get the most from your swim spa experience with our wide range of swimming accessories.

Exercise Handrail

Great for kids, less experienced swimmers and aerobic training.

Swim Pole (optional)

The swim pole assists you in staying afloat, helps keep you in a straight lane, adds resistance if required and aids you to become a more efficient and faster swimmer.

If you're a novice or competitive swimmer the swim pole can help you to improve your swim.

Exercise band (optional)

A variety of exercises can be performed for different muscle groups and fitness levels to help improve flexibility mobility and balance.

Discover the healing power and benefits of Hydrotherapy

Stress Relief

Soaking in a spa helps relax muscles, reduce tension, and alleviate stress. The warm water and massaging jets can calm both the body and mind.

Muscle Relaxation

The combination of heat, buoyancy, and hydrotherapy jets can help soothe sore muscles, ease muscle tension, and improve flexibility.

Improved Sleep

Using a spa before bedtime can promote better sleep by helping the body relax and inducing a deeper, more restful sleep cycle.

Stimulated Healing

The combination of heat and hydrotherapy can accelerate healing processes by improving circulation and reducing inflammation.

Lower Blood Pressure

Regular use of a spa may help lower blood pressure levels, especially when combined with relaxation techniques.

Better Circulation

The heat from a spa dilates blood vessels, leading to improved circulation, which can benefit heart health and overall cardiovascular function.

Pain Relief

Spa hydrotherapy can aid in reducing chronic pain conditions such as arthritis, fibromyalgia, and muscle soreness by increasing blood flow and releasing endorphins, the body's natural painkillers.

Weight Management

While not a direct weight loss tool, using a spa can complement weight management efforts by aiding in relaxation, potentially reducing stress-related eating, and promoting better sleep.

Why Oasis?

Oasis Spas is a premium international brand sold across the world. At Oasis, our designs are built with you in mind. The luxurious design and superior performance of your Oasis Spa will provide you with wide range of benefits, from our Customer Support Commitment to our Easy Care Technology and fully guaranteed warranty.

Exceptional after sales service

We offer robust logistics, storage, and transportation services in Australia, UK, France, Netherlands, Austria, and more. Our dedicated team is committed to providing ongoing support and guidance, ensuring your satisfaction and peace of mind well beyond your purchase.

Manufactured excellence

Produced by Crystal Island, Oasis Spas along with other major world renowned spa brands originate from their state of the art 150,000m² facility. This facility delivers up to 300,000 spas and swim spas to approximately 46 countries. As the largest spa production facility globally, coupled with Oasis Spas local support network, it ensures the purchase of the best possible product.
